

Reporter: Bashiul Alam Sabab
Tested on Google Chrome
Device OS: Windows 11 and MacOS 12.5

SL.	Summary	Description/Steps to Reproduce	Expected Result	Actual Result	Log/Screenshot/Video	Priority
1	In Dashboard, total number of records is not displayed in Import History	<ol style="list-style-type: none">1. Login to platform2. Go to the old dashboard3. In case of new Dashboard, click on "View Import History"4. Check the pagination menu	<ol style="list-style-type: none">1. Total number of records should be displayed in the pagination menu	<ol style="list-style-type: none">1. Total number of records is not displayed		Low
2	Two sets of vertical slider available in Dashboard	<ol style="list-style-type: none">1. Login to platform2. Navigate to Dashboard	<ol style="list-style-type: none">1. There should be one set of vertical and horizontal sliders each	<ol style="list-style-type: none">1. There are two vertical sliders		Low
3	Platform UI flickers on mouse hover action	<ol style="list-style-type: none">1. Login to platform2. Go to any UI with action items like buttons and links3. Hover on the action buttons4. Another way is open the notification panel on the bottom and hover on the left menu (attached second video reference)	<ol style="list-style-type: none">1. UI should not flicker on mouse hover	<ol style="list-style-type: none">1. UI flickers very frequently	https://drive.google.com/file/d/1zvA78LMcXCKGT_W91hm4GCzrm-ydt7NI/view?usp=sharing https://drive.google.com/file/d/1KhBHHugONOA BB2DEiE67eSDRAkD-2II8/view?usp=sharing	High
4	There is no result message triggered after Copy Dataflow operation is completed	<ol style="list-style-type: none">1. Login to platform2. Go to Exports A/B3. Click on Copy Dataflow4. Select data source to be copied and copy destination5. Click on Copy	<ol style="list-style-type: none">1. Copy result (successful or failure) message should be displayed	<ol style="list-style-type: none">1. There is no result message displayed	https://drive.google.com/file/d/1uUmpAUBm-Ve dlzaBxjUtxWL-IRzwwDB/view?usp=sharing	High

5	Label of process run mismatch between UIs	<ol style="list-style-type: none"> 1. Login to platform 2. Go to any UI 3. Click on Run 4. Navigate in between different UIs and check the changed label of the clicked button during process is ongoing 	<ol style="list-style-type: none"> 1. Label should be uniform across all UIs 	<ol style="list-style-type: none"> 1. Someplace the label used is "Processing" and someplace it is "Importing" 	https://drive.google.com/file/d/1eHxhP8LoDaDF1pws-0mOMdAIC5MHU4r/view?usp=sharing	Medium
6	UI toast messages are hidden if bottom notification panel is open	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Authentication 3. Open bottom notification panel 4. Traverse in between Active/Paused/Disabled states to see data 	<ol style="list-style-type: none"> 1. The UI toast messages should always be visible 	<ol style="list-style-type: none"> 1. If notification panel is open the toast message gets hidden behind it 	https://drive.google.com/file/d/1EkDCpFgyz_3xiqHUImqkab2z-1ENGh-f/view?usp=sharing	Low
7	In data source menu, save button spinner keeps on rotating and error message is not triggered if entry is saved without source URL	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Data Sources 3. Click on Add data source button 4. Select a source 5. Select a name 6. Save without populating without a source URL 	<ol style="list-style-type: none"> 1. Error message or form validation should be added that source URL is mandatory here 	<ol style="list-style-type: none"> 1. There is no error on UI, back end throws a 422 error 2. The spinner on Save button keeps on rotating indefinitely 		Highest
8	UI alignment in Data Services UI is broken	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Data Services 3. Check the registered service list 	<ol style="list-style-type: none"> 1. UI alignment should be uniform for all the columns 	<ol style="list-style-type: none"> 1. UI alignment is broken 		Low
9	Export history in Export A/B is not updated after an export is finished	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Export A/B 3. Export an item 4. Check export history 	<ol style="list-style-type: none"> 1. History should update with export data 	<ol style="list-style-type: none"> 1. History is empty 	https://drive.google.com/file/d/1TVRnIc13hwtOjw6CcM_sHgCmrmYDkQ0p/view?usp=sharing	Highest
10	No success or failure message is triggered in Export A/B after an export operation completes	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Export A/B 3. Export an item 4. Check export progress from notification panel 	<ol style="list-style-type: none"> 1. After export operation ends, a message should be triggered stating if export was 	<ol style="list-style-type: none"> 1. Message is not triggered 	https://drive.google.com/file/d/1TVRnIc13hwtOjw6CcM_sHgCmrmYDkQ0p/view?usp=sharing	High

			successful or failed			
11	UI is not scrollable anymore if notifications panel is open in Exports A/B menu	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Export A/B 3. Open the notification panel 4. Try to scroll down the main window 	<ol style="list-style-type: none"> 1. Whole part of the main window should always be accessible 	<ol style="list-style-type: none"> 1. Window cannot be scrolled down at the bottom 		High
12	In Image Designer Redo dropdown menu gets overlapped with Designer menu	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Image Designer 3. Open a design template 4. Make some changes 5. Undo them 6. Click on Redo dropdown 	<ol style="list-style-type: none"> 1. Dropdown items should be properly visible 	<ol style="list-style-type: none"> 1. Redo dropdown menu gets overlapped with Designer menu 		Low
13	In Dataflow shared element usage, getting error site not belonging to the logged in account is present	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Dataflow 3. Click on three dots menu from one of the section titles 4. Select option "Use a Shared Element" 5. Select an element from the provided list 6. Save 	<ol style="list-style-type: none"> 1. Use of shared element should be functional 	<ol style="list-style-type: none"> 1. Error given that the requested site does not belong to the account 	BE Error: <pre>{ "status": 400, "error": { "status": 400, "message": "The request contains invalid parameters." }, "title": "Bad Request", "detail": "The request contains invalid parameters.", "invalidParams": [{ "in": "body", "path": "site", "reason": "The site with id #1101599 does not belong to your account!", "key": "site.valid-site-id" }] }</pre>	Highest

						
14	In dataflow creation of a shared element, getting error site not belonging to the logged in account is present	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Dataflow 3. Click on three dots menu from one of the section titles 4. Select option "Convert to a Shared Element" 5. Select a name for the element 6. Save 	<ol style="list-style-type: none"> 1. Conversion of a shared element should be functional 	<ol style="list-style-type: none"> 1. Error given that the requested site does not belong to the account 	<p>BE Error:</p> <pre>{ "status": 400, "error": { "status": 400, "message": "The request contains invalid parameters." }, "title": "Bad Request", "detail": "The request contains invalid parameters.", "invalidParams": [{ "in": "body", "path": "site", "reason": "The site with id #1101599 does not belong to your account!", "key": "site.valid-site-id" }] }</pre> <p></p>	Highest
15	Prompt toast message is not dismissed in Dataflow	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Dataflow 3. Run any operation from "Automap Connection" 	<ol style="list-style-type: none"> 1. Each toast message should be dismissed after the defined time interval 	<ol style="list-style-type: none"> 1. "Automapping Connections" toast is not dismissed 	<p></p>	Medium
16	Pagination icons in Dataflow Ui are not functioning properly	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Dataflow 3. Click on Preview option 4. Click on previous, next, move to first, move to last pagination buttons randomly 	<ol style="list-style-type: none"> 1. Pagination buttons should work functionally 	<ol style="list-style-type: none"> 1. The buttons are not functioning as expected 	https://drive.google.com/file/d/1f_jgbr66aFB1l_hk7kfxxhYeH9EyLU2H/view?usp=sharing	High

17	First row values in Data View get cropped at the top	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Data View 3. View data for Intermediate option 	<ol style="list-style-type: none"> 1. Data should be fully visible 	<ol style="list-style-type: none"> 1. First row values get cropped at the top 		Low
18	No data displayed in full screen view in Data View	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Data View 3. Load data 4. Click on Full Screen icon 	<ol style="list-style-type: none"> 1. Data should be visible 	<ol style="list-style-type: none"> 1. Data are hidden in full screen view, clicking on Refresh does not work either 	https://drive.google.com/file/d/1E5wbyOHvwcRMYmF-egNtFLoxOjHhfQUY/view?usp=sharing	High
19	Blacklist operation is not working from Large view	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Lists 3. Create a Standard Inclusion/Exclusion list with day 4. Go to Data View 5. Select Intermediate 6. From day column click on Edit 7. From right menu drawer click on Large view 8. Drag and Drop Blacklist option on the right 9. Select the created list from dropdown 10. Save 11. Check the intermediate list after UI refreshes 	<ol style="list-style-type: none"> 1. Blacklist data should be modified with a different background color 	<ol style="list-style-type: none"> 1. Blacklist operation is not functional from Large view 	https://drive.google.com/file/d/1GZlcVO-k9I2NFTUxnFbvYbdaEE6v2tgH/view?usp=sharing	High
20	Sorting is not working in Data View	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Data View 3. Click on columns to sort in ascending or descending order 	<ol style="list-style-type: none"> 1. Clicking should reorder the data accordingly 	<ol style="list-style-type: none"> 1. Sorting is not fully functional 	https://drive.google.com/file/d/16-jX2JhNb_YjVZQXa5ePYtgf6rvbkP7i/view?usp=sharing	High
21	UI stays on loader mode if user tries to open a list that is not shared with the account	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Lists 3. From the table view open any item that is not shared with the current account 	<ol style="list-style-type: none"> 1. For an inaccessible item UI should navigate back automatically or stop showing the loader icon 	<ol style="list-style-type: none"> 1. UI shown an error message and keeps the loader icon indefinitely 	BE Error: <pre>{ "status": 403, "error": { "status": 403, "message": "Access denied to the</pre>	High

					<pre>requested resource." }, "title": "Forbidden", "detail": "Access denied to the requested resource." } </pre> https://drive.google.com/file/d/1oIPo39WvOaaeDuaBZ6IU1rsgMs6KE8Oh/view?usp=sharing	
22	Total item count on the left and right of the UI do not match in List items	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Lists 3. Check item counts for used/unused lists from left and right of the UI 	<ol style="list-style-type: none"> 1. Total item count should always match everywhere 	<ol style="list-style-type: none"> 1. Item count on the left and right are not matching 	 Screenshot 2022-...	Medium
23	Downloaded list CSV from Lists does not contain date	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Lists 3. Open an accessible list 4. Click on Actions 5. Download list 6. Open the downloaded CSV 	<ol style="list-style-type: none"> 1. Date should be completely visible in the downloaded file 	<ol style="list-style-type: none"> 1. Only year and month values are visible, date is missing 	 Screenshot 2022-...	Low
24	No success or failure message is triggered in Lists after deleting a list	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Lists 3. Open an accessible list 4. Delete the opened list 	<ol style="list-style-type: none"> 1. After delete operation ends, a message should be triggered stating if deletion was successful or failed 	<ol style="list-style-type: none"> 1. Message is not triggered 	https://drive.google.com/file/d/1NWzstISUVKthC2fGWdNxeUjOQGGNhCLt/view?usp=sharing	High
25	Sometimes the added items in a list is not shown right away	<ol style="list-style-type: none"> 1. Login to platform 2. Go to lists 3. Create a new list or open an existing list 4. Add new items to the list 	<ol style="list-style-type: none"> 1. Added items should be displayed right away 	<ol style="list-style-type: none"> 1. Sometimes the items are not displayed right away, you need to refresh the UI to see the list 	https://drive.google.com/file/d/1d_3bJlb6xSkHRd5eSdqgPWIELxWqL5P5/view?usp=sharing	Low

26	In ROI Strategy rules can be saved with conditions mismatching with each other	<ol style="list-style-type: none"> 1. Login to platform 2. Go to ROI Strategy 3. Select an item 4. Click on Add Rule 5. Add some mismatching conditions, for example: select a date field and submit value as characters for the field 	<ol style="list-style-type: none"> 1. There should be validations for condition selection 	<ol style="list-style-type: none"> 1. Conditions mismatching with each other are saved in the rule 		High
27	Save button is clickable in ROI Strategy even even there is no rule added	<ol style="list-style-type: none"> 1. Login to platform 2. Go to ROI Strategy 3. Click on Save button 	<ol style="list-style-type: none"> 1. Save button should not be clickable when rules are not added 	<ol style="list-style-type: none"> 1. Save button is clickable and it triggers a success toast on click 		Low
28	In Monitor event, error event can be created with invalid threshold percentage	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Monitor 3. Click on Add Error event 4. Select a percentage based error event 5. Select all mandatory options 6. In threshold filed insert a negative value or a percentage greater than 100 	<ol style="list-style-type: none"> 1. Invalid value should not be taken as input 	<ol style="list-style-type: none"> 1. Error events are created with the invalid threshold values 		High
29	Additional column exists in downloaded CSV from Activity summary	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Activity Summary 3. Export CSV 	<ol style="list-style-type: none"> 1. Downloaded file should contain exact data as shown in UI 	<ol style="list-style-type: none"> 1. Downloaded file contains an extra column which is not in the platform UI 		Low
30	Add Keyword option is not displayed after removing a keyword in Keywords tab of Tracking	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Tracking 3. Open Keyword tab 4. Add a keyword 5. Remove the added keyword 	<ol style="list-style-type: none"> 1. After removal of keyword add button should be visible 	<ol style="list-style-type: none"> 1. Add button is not displayed right away, you need to refresh the UI 		Medium
31	Cannot add more than one column in Exclude User-Agent tab of	<ol style="list-style-type: none"> 1. Login to platform 2. Go to Tracking 3. Open Exclude 	<ol style="list-style-type: none"> 1. There should be error message displayed if we 	<ol style="list-style-type: none"> 1. There is no error message displayed 		Medium

	Tracking	User-Agent tab 4. Add a column 5. Try to add another column	are not allowed to add more than one entry
